

# Digital solutions, special tools and equipment for the workshop

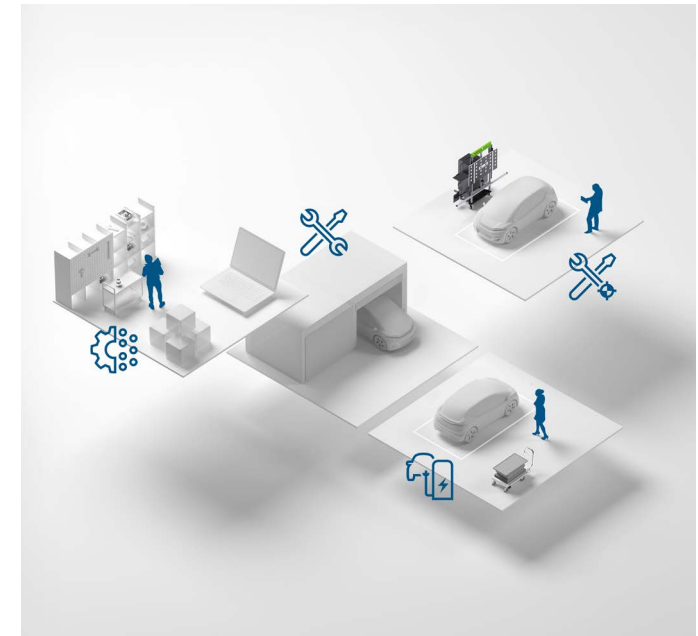

**Powertrain and electrified mobility**

## State-of-the-art

Tools and services, including digital solutions, enabling e-commerce, shop asset management software and tool renting

## Rapid development

Providing the technician with the right tools and equipment to service new vehicle platforms upon their first arrival to the dealer

- Tools developed in cooperation with the vehicle manufacturer to manage the repair process and reduce warranty
- Visibility of dealer service tool portfolio allows for real-time readiness audit
- Solutions drive dealer workshop's efficiency and productivity
- Customer vehicles repaired with the proper tools eliminates customer returns (fix it right the first time)
